PRICE, FIVE CENTS

CHOLERA COMING.

TYPHOID FEVER A FORERUNNER OF THE SCOURGE.

A St. Louis Physician Issues a Note of Warning That Should Be Heeded.

The following from the St. Louis Republic should impress upon every one who reads it the urgent duty of using every means to ward off the threatened danger:

"Dr. Wm. McPheeters, of 3452 Pine street, one of the ablest physicians in the city, fears an epidemic of cholera in this country next spring, and thinks the present prevalence of typhoid fever is the forerunner of that other dread disease.

When asked the reason for his belief he said: "There are singular symptoms observed in the typhoid fever now prevalent in the city. I don't think I ever knew of such general complaint of looseness of the bowels, and it is especially noticeable with and attendant upon attacks of typhoid fever. I believe this means an epidemic of cholera in the spring. My reason for this belief is the fact that there was a similar universal tendency to the bowel affections in the spring and fall of 1848, which was followed by the cholera epidemic of 1849. There was a general disposition to bowel troubles and some cases of cholera morbus then, and I observe the same state of affairs now.

"The typhoid fever cases seem to be increasing, but they are mostly of a mild form. I have had no deaths in my practice, but I have several very grave cases, the outcome of which is in doubt. I have noticed in several instances that the attacks began with slight fever and bowel trouble and then developed into typhoid symptoms. In other cases the disease may be traced to malarial tendencies. This fever of the bowels should be watched and not allowed to go so far as to result in typhoid. The remedy is attention to hygiene, plainness of food and cleanliness of person and premises. It would be proper to control the bowels by mild medication, not stopping them, but simply checking the diarrhoea."

Dr. McPheeters was to have delivered an address Saturday night before the St. Louis Medical society on the "History of Typhoid Fever," but owing to the fact that he has a number of severe cases in charge he was unable to give the time necessary to prepare the paper."

MR. STONE'S MAIL ENORMOUS.

Governor-Elect Receiving More Letters Than He Can Answer.

NEVADA, Mo., Nov. 21.—Governor-elect Stone is receiving an enormous amount of mail. Many of the letters are simply congratulations, but a large number are letters recommending and endorsing applications for appointments. It is utterly impossible for him to answer this class of letters unless he should devote his entire time to the task. In conducting his correspondence he is compelled to select from the mass letters as seem absolutely to require replies and answers only such. He regrets he can not respond to all communications sent to him, but that is simply impossible.

GREAT DAMAGE.

Life and Property Destroyed by Floods in Washington.

SEATTLE, Wash., Nov. 21.—The late dispatches received here tell of great loss of life and property by recent floods in this state. The damage is general throughout the state and in the rich valleys millions of dollars worth of property has been destroyed. Many lives are known to have been lost, but communication with the flooded districts is so difficult that few details are at hand.

Fire at Nevada.

NEVADA, Mo., Nov. 21.—This city was visited by one of the most

Since the Election.

We have picked up some homes at forced sales, and can sell you a beautiful place for less than cost. Come see us. We write FIRE INSURANCE, and sell REAL ESTATE, BONDS, MORTGAGE, NOTES AND LOAN MONEY.

Woodfin & Thatcher.

disastrous fires in her history yesterday morning.

The fire originated in what is known as the Hildebrand block on Cherry street, and was first noticed in J. S. Saunders' barber shop. From there it extended to William Seachies' tailor shop, and then spread to A. B. Young's grocery store. The fire was then gotten under control, but the three buildings and stocks were completely destroyed. The loss will reach about \$20,000 and is about half covered by insurance.

LOTS OF HALLELUJAH.

Salvation Army Conference in New York City.

NEW YORK, Nov. 21.—The Salvation Army conference in this city has attracted a great crowd. Fully twenty thousand of the salvationists from all sections of the country have already reached the city to attend to-day's conference.

CAR STABLES BURNED.

St. Louis Has a Two Hundred Thousand Dollar Fire.

ST. LOUIS, Mo., Nov. 21.—The stables belonging to the Lindell Electric Car line were destroyed by fire to-day. The loss is estimated at \$200,000.

A Decision Reached.

TAUNTON, Mass., Nov. 21.—The grand jury has reached a decision in the celebrated Borden murder case. The verdict will not be made public until to-morrow.

The Monetary Conference.

NEW YORK, Nov. 21.—The delegates to the international monetary conference left Victoria station at 11 o'clock this morning.

LEGRANDE CHANGES HANDS.

A Gentleman from Arkansas Purchases the Interests of Robert Sadler.

Robert Sadler, a former conductor on the Wabash and who came to Sedalia from Centralia to operate the LeGrande hotel sold out to-day to Mr. J. A. Mahan, recently from Green Forest, Carroll county, Ark., where he was engaged in the distillery business.

Mr. Mahan will assume control at once and will continue the hotel. Mr. Sadler will return to Centralia, but has not yet decided in what business he will engage.

Signed by Zachary Taylor.

An interesting document was filed for record in the recorder's office to-day. It is a land patent granted by the government to Adam Scott, jr., for land entered by him in the land office at Clinton years ago. The certificate is No. 28,553 and is signed by President Zachary Taylor, per Thos. Ewing, jr., secretary. It is dated August 1st, 1849, and gives forever to Mr. Adams and his heirs 40 acres of land in the southwest quarter of the southeast quarter of section 19, township 47, range 22.

Not an Unkind Parent.

The many friends of Mr. Wm. Pigg feel hurt at the intimation in the account of the suicide that he was unkind to his sons. They say that no kinder or more indulgent parent ever lived, and that he has made many and great sacrifices for his boys, and has done all that a parent could for their welfare.

The bereavement that has come upon the family is sincerely regretted by all who knew them, and the expressions of sympathy for Mr. Pigg himself are many and genuine.

Work Being Pushed.

Mr. Robert Walker superintendent of the car department of the M., K. & T., has a large force of men at work in the yards to-day, transferring 60 flat cars into ballast cars for the M., K. & E. extension.

Application to Practice Law.

Orville M. Barnett filed an application in the office of Circuit Clerk T. A. Fowler this morning for a license to practice law. He will be examined at the January term of the circuit court.

Removal Notice.

J. M. Stonestreet has removed his photograph parlors from 219 Ohio street to 315 Ohio street, where he would be pleased to have his customers call.

Marriage License.

A marriage license was granted to-day to Ulrich Pfeiffer, aged 31, and Rosa Bankey aged 24, both of Sedalia.

Commissions Received.

County Clerk Thos. Matsum received to-day from the secretary of state the commissions for the nine county officers elected.

GOING TO WORK.

The Late Homestead Strikers Again Accept Employment.

HOMESTEAD, Pa., Nov. 21.—The celebrated strike having ended, many of the old employees of the Homestead mills have gone to work on the terms proposed by their employers. It is estimated that full one-half of the old men went to work to-day.

The Charity Entertainment.

Mrs. Luren Walker, the well-known elocutionist who has so kindly consented to give an entertainment at the opera house, in connection with her pupils and a number of the most prominent singers and musicians, for the benefit of the poor of the city, has about completed her plans.

Wednesday evening, November 30th, has been selected as the date and the house will undoubtedly be packed from pit to gallery. The undertaking is a most commendable one and everybody should interest themselves in making it a success.

Robbed at Green Ridge.

A box of boots and shoes was broken open on the depot platform at Green Ridge yesterday and a number of pairs stolen.

Prosecuting Attorney George Longan received a letter from Squire James Vaughn this morning saying that the thieves had been caught. They proved to be five tramps. Lawyer D. E. Kennedy was sent down by Attorney Longan to prosecute the case.

If convicted, the prisoners will be brought to Sedalia on the evening train and lodged in jail.

An Early Morning Fire.

A barn belonging to Chris. Alday, the second hand man, and one belonging to Bob Boamer, both situated on Lafayette between Second and Third streets were found to be on fire at 2:30 o'clock this morning, and both companies responded. Mr. Alday's barn contained two stoves and a small amount of hay and was destroyed; loss about \$50. Mr. Bonner's barn was not entirely consumed, the damage amounting to \$25. The origin is unknown.

He Was Drunk.

There was quite an uproar of excitement at an East Broadway residence last night at what was supposed to be an attempt at house-breaking. An investigation by the police resulted in finding that the supposed robber was a drunken and belated citizen who was trying his night key in every door which he passed, thinking that he would at last find the right house.

Such a luxury is dangerous business in Sedalia at present.

An Ear Torn Off.

Mr. John Blair, a prominent farmer residing 6 miles north of town met with a peculiar accident yesterday morning. He was engaged in hauling lumber from the O'Daniel saw mill when his horse became frightened at the engine and ran away, throwing Blair from the wagon injuring him seriously. Besides numerous cuts and bruises one of his ears was torn completely from his head.—Green Ridge Local.

Disturbed a Religious Meeting.

Harry Smith was arrested this morning by Constable Jim Gossage for disturbing a congregation at the Northeast Sedalia Baptist church. The warrant was sworn out on complaint of J. D. Wells.

Smith was taken before Justice Fisher who set his case for 2 o'clock to-morrow. He was sent to jail, being unable to furnish a \$25 bond.

A Warrensburg Wedding.

Cards are out announcing the marriage of Miss Ella Griggs and Mr. A. L. Kenyon, both of Warrensburg, next Thursday evening. Miss Griggs is a charming young lady and has a host of friends in Sedalia who smile upon her happiness. She has frequently been the guest of Miss Hattie McDonald.

Still in Business.

Mike Doherty shipped eight car loads of fine beef cattle from Windsor to-day. Mike is still in the swim when it comes to the cattle business, and is still president of the Green Ridge bank. Gazette please copy.

Ministers of the gospel are requested to call at our drug store and we will give them (free of charge,) one \$2.00 box of "Cactarine," or Extract of Mexican Cactus, which cures Catarrh, Hay Fever and all throat and nasal troubles. AUG. T. FLEISCHMANN.

WOOD'S OPERA HOUSE!

To-Night!

Uncle Josh Spruceby,

Produced by 30 talented artists, brass band and orchestra. Everything entirely new. New Ideas! New Scenery! A Saw Mill at Work, showing machinery room with large stationary saw mill in full operation. The Great Safe Blowing Scene! in which "Kid Kelley" and "Brooky Jordan" blow a real safe.

Incidental to the Comedy, the Famous Serpentine Dance, by LOTTIE MORTIMER.

FOUR TOUGH NEGROES.

Sent Up from Jackson County for Forgery, Highway Robbery and Assault to Kill.

Deputy Marshal J. B. McGowan and Deputy Clerk W. E. Hagan, of the criminal court at Kansas City, passed through the city this morning with four negroes, whom they were taking to the penitentiary at Jefferson City for various offenses and different terms. The negroes were above the average batch of criminals in looks.

Lincoln Edwards, for highway robbery, goes up for ten years. George Stewart, alias Thompson, received 10 years for forgery. Edwards made several fraudulent checks for small amounts.

George Clark Early held up a white man on one of the principal streets of Kansas City at 9 o'clock one morning and robbed him of \$35 in cash. He will serve time for 7 years.

Isaac Harris was sentenced for two years for assault with intent to kill. Harris got into a row with a man and struck him with the loaded handle of a whip, knocking out the man's eye. It was done in the heat of the fight, and the court was lenient with him.

IT KILLED HIM.

A Christian Scientist Experiments With a Rattlesnake.

A dispatch from Guthrie, Oklahoma, says:

A number of Christian Scientists have been holding meetings near Hennessey for some time. A few nights ago one of the leaders told those present that if they had faith they could go out and pick up a rattlesnake and the reptile would not bite them.

The next day a recent convert named Southerns saw a rattlesnake, and thinking to test the matter picked it up. The reptile fastened its fangs in his arm, but he refused to have medical attendance and has since died, despite the many long prayers of his fellow believers.

The Special Train to Lexington.

A special train will carry the Sedalia guests to the Bard-McGrew wedding at Lexington, to-morrow evening. The train will leave the union depot promptly at 3 o'clock p.m. and arrive at Lexington about 5. It will return at the latest possible hour to make connection with the 12:40 train for the east. The tickets are on sale at the union depot, the round trip fare being \$2.

Wants to Sell a Furnace.

W. H. Garretson, of Dallas, is in the city and will appear before the council to-night to offer inducements for the city to put in a patent furnace for the complete destroying of the city of al.

POLICE COURT.

A Bad Man from "Old Kentucky" Is a Walking Armory—Fined for Vagrancy.

There was a red-headed young fellow in the court this morning that afforded no end of amusement to those who appreciate how big a fool a boy can be when he has thoroughly saturated himself with the yellow back novel. Officer Bill Drake found John Smith beating his way on a passenger train last night. He was placed under arrest, and when the officer felt of the young man's pockets he felt a cold shiver run down his official spine. He was loaded from the top of his broad-rimmed hat to the soles of his brogans. A careful search at the lockup revealed a heavy leather belt filled with cartridges, a self-acting revolver, a murderous looking razor, a pair of "home made" knucks manufactured out of a zinc washboard, a wild west dagger fully a foot long. The handle of the dagger was a deer foot tipped with silver. John Smith felt that he was the preserver of some lovely maiden who was being pursued by the red devils of the plains; his boots were sloshing over with blood. Johnny made several bad movements while being taken to the calaboose.

CIRCULATION.

There are more Sedalia people regular readers of the **EVENING DEMOCRAT** than any other paper.

A WEALTHY Mexico banker stood on his head when he heard of Cleveland's election.

THE New York *Herald* thinks Governor Francis is booked for a place in Cleveland's cabinet.

"Off with politics and on with business," exclaims almost every newspaper in the country. Wouldn't it be well to consider politics as business, and serious business, too?

THE Parsons *Sun* has an editorial on "Can Death be Conquered," and handles the subject as only a Kansas republican journal can handle it after the recent experience at the ballot box.

ROBERT BRUCE, manager of a Chicago detective agency, in his testimony before the investigating committee, says that Pinkerton's forces are for the most part made up of the scum of the earth and that one of his superintendents is an ex-convict.

WHAT does the esteemed Kansas City *Journal* mean by saying that New York and Chicago are not American cities? Has the sting of defeat made it desirous of reviving know-nothingism, or does that paper regard Boston as the only American city?

THE great strike at the Homestead works has been declared off. Carnegie's millions were too powerful to be combatted, and now only a long and terrible "black list" remains as a reminder of the lock-out—the "black list" and some few graves in the town cemetery.

It is sometimes difficult to determine when politicians and newspapers are in earnest. They will rant by the hour about the evils of a policy and then do nothing to effect a change. They will defend a policy with warmth and vigor during a campaign, and then turn round and admit that such policy is wrong. Witness the following from

the *Globe-Democrat*: "This thing called McKinleyism—this advancing of duties on articles which have been on the dutiable list for from a third of a century to a century—has been condemned finally and eternally by the people. This verdict has been rendered twice, and after an interval of two years between the judgments. The first verdict may have been hastily given, and without sufficient examination of the evidence, but the second was recorded after reasonable deliberation, and it was more pronounced and emphatic than the first. If the republican party is to win any victories in the future it must drop McKinleyism immediately and permanently, and send all the men who cling to it to the rear."

MISSOURI IN THE CABINET.

The question of whether or not Missouri is represented in the cabinet becomes a question as to whether certain rivals and political enemies can end their feud and bury their quarrels.

Of course it is possible that if Missourians were united in support of one man, the president would prefer some other adviser than his Missouri supporters had selected for him.

But with two factions in this state ready to fly at each other's throat, there is no chance for either to win a cabinet place, especially when there is no other reason than personal ambition and personal dislike that has estranged the would-be leaders.

In speaking on this subject the *Sunday Mirror* says:

"Gov. Francis is understood to be quite near Mr. Cleveland, but it is asserted on good authority that Col. Jones of the *Republic*, is also way up in the national councils of the party, having an especially strong pull with W. C. Whitney. Col. Jones has disclosed to certain friends of his that he is not going to be ignored in the distribution of the spoils of Missouri.

Gov. Francis has a boom for a cabinet position, but aside from the fact that Col. Jones is bitterly opposed to him it must be remembered that W. H. Hatch, of this state, is a candidate for secretary of agriculture. Then, Illinois having gone democratic, Congressman Ben Cable, who was largely instrumental in bringing about that result, is also slated for a place in the cabinet. Gov. Francis' chances do not appear so good the longer they are considered. It has been suggested that he be given a foreign mission. It has also been suggested that Col. Jones be given a foreign mission. Neither will take such an appointment, Francis because he cannot leave his business interests or sacrifice his hopes of senatorial election, Jones because he cannot consent to leave his paper. It seems very likely that long before the time of the appointment the enmity between Francis and Jones, long smoldering, will break out in a blaze and there will be a lively row on hand. Senators Vest and Cockrell are inclined to regard Jones and Francis with equal distrust. They will work together to hold their prestige, and it is not unlikely that should they be beaten in some instances by either of their rivals in the matter of appointments, they will appeal to senatorial courtesy to defeat the nominees."

PRESIDENT CLEVELAND has clear ideas on many subjects, one of which he elucidated as follows in a letter to a young man who sought appointment to office:

"There are no persons so forlorn and so much to be pitied as those who have learned in early life to look at public position for a livelihood. It unfits a man or boy for any other business, and is apt to make a kind of respectable vagrant of him. If you do well in other occupations, and thus become valuable to the people, they will find out when they want a good man for public service. You may be sure that I am, as you say, the friend of every boy willing to help himself; but my experience teaches me that I cannot do you a better service than to advise you not to join the great army of office-seekers."

HON. MONT CARNES, who so ably and faithfully represented the Eastern district of Pettis county in the last general assembly, is a candidate for the office of door-keeper of the house of representatives at the forthcoming session. Mr. Carnes needs no introduction to the members who served in the last general assembly; no member of the house was personally more popular or enjoyed in a higher degree the respect and confidence of his colleagues; but to the new

members the *DEMOCRAT* desires to commend him as a gentleman in every way worthy of the honor he seeks. He is a faithful, sincere, working democrat who is always at his post when the party needs his services; he is an honest and worthy gentleman who can be depended upon under all circumstances to do his duty in any position in which he is placed. His acquaintance with the people of the state is extensive and he is peculiarly fitted for the position he asks. Pettis county asks this honor at the hands of the house and presents in Mr. Carnes a gentleman to whom she entrusted her own interests in the last general assembly and who never failed to do his duty upon any occasion.

THE Jefferson City *Tribune* very properly says: "The anti-Catholic organization in this state may as well disband. It failed to make any impression at the late election, notwithstanding the desperate efforts of a few fanatics to stir up religious prejudices. The time when people could be influenced by such appeals belongs to the past, and it is well that it does. This is a free country and neither recommends nor persecutes any particular religious belief. There is room for all civilized forms of religion. Many people who do not care for any particular religion will quickly enlist their sympathy with any organization that is being persecuted. The American Catholics have done nothing to call forth the intolerant attacks of the A. P. A. organization in this state. Hereafter we hope to hear no more of this organization. It does not deserve to exist."

A STRONG appeal is being made to Governor Francis for the pardon of Ed. Noland, late state treasurer, who was sentenced to the penitentiary for embezzling state funds. The appeal is based upon Noland's former good character, upon his frank admission of guilt and willingness to make atonement, and upon the fact that an estimable wife and several small children are dependent upon him. There is no attempt to justify Noland or excuse his crime. His guilt is admitted, but his friends claim that his fall was due to weakness rather than to evil intent and that if given an opportunity he will yet wipe out by an honorable, upright life the stain he has made upon an honored name.

TYPHOID fever is alarmingly prevalent in many sections of the country at this time. There were 264 cases in St. Louis in October and over 300 new cases during the present month. Physicians are at a loss to explain the cause of the prevalence of the disease, but urge the greatest care as to the water used. If there is any doubt as to the purity of the water used for drinking purposes, it should be boiled before using and then bottled and allowed to cool. Sedalians may well take similar precautions and not only see that their drinking water is free from dangerous impurities, but that the best possible sanitary regulations are enforced.

THE democracy should move upon the entrenchments of the protectionists with cavalry, infantry and artillery. It is war to the death between the democracy and the protected industries, and no man can remain neutral and at the same time remain in politics.

American Cholera.

From the Daily Revelle, Whatcom, Wash.
"T. C. Burnett, the democratic candidate for sheriff, was taken violently ill at Clearbrook. He had all the symptoms of Asiatic cholera, and for an hour or two it was feared he would die. They finally gave him a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which revived him until a physician arrived." That is precisely what the manufacturers of that medicine recommend for cholera. Send for a physician but give their medicine until the physician arrives. If cholera becomes prevalent in this country next summer this preparation will be in great demand because it can always be depended upon. For sale by Aug. Fleischmann, druggist.

Notice to Smokers.

AMUSEMENTS.

Safe Blowers in Town.

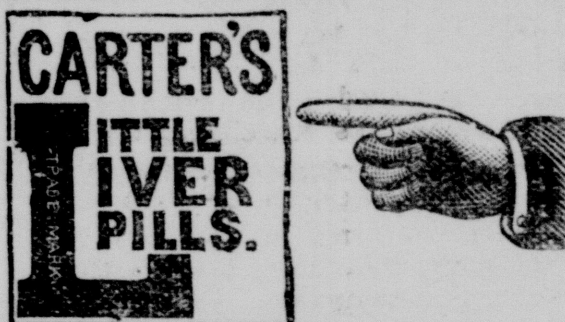

The "Uncle Josh Spruceby" company is in the city and will hold the boards at Wood's opera house to-night. The play is said to be a most charming picture of New England life with its honest sincerity. The play contains many realistic details, chief among which is the saw mill scene where the heroine comes near being torn to pieces by the rapidly moving saw. A reporter saw the apparatus unloaded at the depot this morning; the saw was a very large one. Two ex-convicts blow open a safe in full view of the audience.

The players were at Jefferson City last Friday night and brought forth the following complimentary notice from the *Tribune*: "Uncle Josh Spruceby" delighted a big audience at Lohman's last night. The piece is full of realism and the safe blowers performed a feat never before attempted on the local stage. The company throughout is good and carries a fine band and orchestra.

"Tangled Up." Will S. Rising, who, with Louis DeLange, is a star in the farce comedy "Tangled Up," which comes to Wood's opera house Tuesday evening, has many personal friends in Sedalia, besides the wider circle of well-wishers who have seen his work in "Starlight." "The Little Tycoon," "Said Pasha" and Lotta's company. Rising is something of a linguist and a good deal of an athlete, as well as a good singer and a capable actor. A French farce which he saw in Paris is the basis of the lively piece which he has constructed and named "Tangled Up."

Barlow Brothers' Minstrels. This well-known minstrel organization is the attraction at Wood's opera house for Thanksgiving, matinee and night, (Thursday, 24th), and will be found an appropriate one. Among the principal people are Billie and James Barlow, Larry McAvoy, Archie Royer, Thompson and Duclos, Baker and West, Arthur LaBoud, the Manhattan Quartette and the Leon brothers.

Liquor for family use, Frank Krueger, 112 Osage street.

CURE SICK HEAD
Sick headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Broominess, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

Notice to Sidewalk Contractors.

Notice is hereby given that the city council of the city of Sedalia, Missouri, will receive bids for the construction of wooden sidewalks from the north line of Thirteenth street to Broadway on the west side of Ingram avenue as provided by an ordinance of said city entitled "An ordinance providing for a wooden sidewalk on the west side of Ingram avenue between Thirteenth street and Broadway," passed September 1st, 1890, and approved September 3d, 1890.

All bids shall be sealed, state the price per lineal foot, and shall be filed in the office of the city clerk at or before 5 o'clock p. m. Monday, November 21st, 1892.

The city reserves the right to reject any and all bids.

J. S. BOSSERMAN, RUDOLPH DEAN, DANIEL MCKENZIE, Committee on Streets and Alleys.

Resolution.

Be it resolved by the city council of the city of Sedalia, Missouri, as follows, to-wit: That we deem it necessary to pave Third street from the east line of Hancock avenue east to east line of Engineer street, except that part of Third street now paved by P. McEnroe and that part of Engineer street now paved by McEnroe & Noble, this resolution be published in the newspaper doing the city printing for two consecutive weeks.

Passed this 7th day of Nov. 1892.

Approved this 9th day of Nov. 1892.

EDWARD HUGH, Acting Mayor.

Attest. EDWARD HUGH, City Clerk.

STEAMER BURNED.

Four Men Supposed to Have Perished With It.

TERRIBLE COLLISION AT CHICAGO.

Three Men Killed and Several Injured—A Goose of a Man Samples Rattlesnake Poison—Train Wreck in Alabama.

MEMPHIS, Tenn., Nov. 21.—The steamer Rosa Lee was burned at the wharf. The boat had come in from Ashport and the officers were leaving her when the cry of fire was heard. The officer on watch awakened the passengers and all above the deck got out in safety. Chief Engineer Bailey attempted a similar duty below the decks and thirty passengers came ashore.

A number of laboring men got on the boat at Ashport and they were soon in a beastly state of intoxication. It is thought that four of these men were burned to death as the engineer was not able to rouse them. The stern of the boat swung around and it was thought for a few minutes that the vessel would break away and drift against other vessels in the harbor but a current of wind drove her shoreward. The boat was consumed all but the hull in thirty minutes. It is thought that the fire was caused by one of the laborers from Ashport dropping a match among the cotton.

The Rosa Lee was one of the Lee line, owned and operated by Capt. James Lee and son. She was built five years ago at a cost of \$70,000. The loss is complete, with \$27,000 insurance. Her manifest consisted of 397 bales of cotton and 2,000 sacks of cotton seed worth \$25,000. The cotton was covered by open policies at \$40 per bale. In the afternoon search was made for traces of the four men thought to be lost in the fire but none were found.

A BLUNDER OF SOME ONE.

CHICAGO, Nov. 21.—Through the blunder of some one a terrible collision of two heavily laden freight trains occurred on the Belt Line railway, near Archer avenue crossing, at 3 o'clock yesterday morning, three lives were lost and two men were injured so seriously that they may not recover.

Those who were killed are: John Beauchamp, conductor of Belt Line train No. 14.

Richard A. Otto, brakeman of Belt Line train No. 14.

Louis Obietz, fireman of Belt Line train No. 38.

Those who were injured are: Thomas Garland, engineer of Belt Line train No. 38, bruised about face and legs and scalded badly; left arm broken. John Best, brakeman of Belt Line train No. 38, badly scalded; may not recover.

Train No. 14 had come to a stop and it is supposed that Beauchamp and Otto were asleep in the caboose, as they failed to flag No. 38, which was following them. The force of the collision was terrific and a dozen cars were smashed to kindling wood. The bodies of Beauchamp and Otto were taken from the debris terribly mangled, and Obietz's remains were found crushed between the boiler head and tender of his engine.

Best, who was on the engine with Obietz, managed to crawl from the wreck unassisted, though both were badly crushed and scalded by the steam that rushed from the broken pipes. Immediately after the disaster the wreckage might fire and it was only by great exertion on the part of the railroad men that the flames were prevented from reaching the forty cars of oil which composed train No. 38.

A CONVERT'S MISHAP.

GUTHRIE, Ok., Nov. 21.—A number of Christian Scientists have been holding meetings near Hennessey for some time. A few nights ago one of the leaders told those present that if they had faith they could go out and pick up a rattlesnake and the reptile would not bite them. The next day a recent convert named Southern saw a rattlesnake, and thinking to test the matter picked it up. The reptile fastened its fangs in his arm, but he refused to have medical attendance and has since died, despite the many long prayers of his fellow believers.

ONE PASSENGER BADLY HURT.

MOBILE, Ala., Nov. 21.—Ten miles from Jackson the south-bound train on the Mobile & Birmingham railway jumped the track and went down an embankment into a ditch. Only the engine and tender kept the track. The smoker and a passenger car took fire. They were extinguished with difficulty by the passengers. Of the thirty passengers in the car all escaped with slight injuries except Edward Adams, a traveling salesman for Stearns & Co., of Cincinnati. He received serious internal injuries.

Decrease in Immigration.

WASHINGTON, Nov. 21.—The bureau of statistics reports that the number of immigrants arrived in the United States during the month ending October 31, 1892, was as follows: Austria-Hungary—Bohemian, 231; Hungarian, 408; other Austria (except Poland), 318; Denmark, 474; France, 484; Germany, 3,881; Italy, 904; Russia (except Poland), 413; Poland, 34; Switzerland, 158; Switzerland, 158; Sweden and Norway, 1,821; England and Wales, 3,884; Scotland, 91; Ireland, 1,911; all other countries, 785; total, 16,428. For the same period last year the total number was 54,182.

Two Years For Manlaughter.

RUSSELL, Kan., Nov. 21.—W. T. Sprague was sentenced to two years in the penitentiary for the killing of John Driscoll at Dorrence, Kan., on the 29th of last August. Sprague was a member of a threshing crew from Cisco, Ill. Driscoll and several others, after bracing up their courage with hop tea and other so-called temperance drinks, concluded to do up the Illinois outfit, with the fatal result mentioned.

Owing to the recent death of Mrs.

Harrison there will be no festivities at the White house until after the holidays.

LOST ITS "FAT."

The Union Pacific No Longer to Absorb California Travel.

CHICAGO, Nov. 21.—Officials of the Santa Fe, Burlington, Rock Island, Colorado Midland, Rio Grande Western and Denver & Rio Grande roads, after a conference of nearly a week, have decided on a method of dealing with the Union Pacific on account of its refusal to divide business with them at Denver and Ogden instead of at the Missouri river. An agreement was reached which resulted in the issuance of the following joint circular signed by the general passenger agents of everyone of the above named roads:

To connecting lines: The Union Pacific railway system has, by its existing regulations, prohibited the issue of any one way and round trip tickets, reading in part over the undersigned lines, or made the sale of such tickets practically impossible, thus closing to our lines and our various connections important gateway that were formerly open to us and implying by its acts a desire to decrease the interchange of business with these companies. In view of these facts you are respectfully requested to remove from sale all round trip tickets or orders for same reading over the undersigned lines, any portion of which read over the Union Pacific railway, as such tickets will not be accepted by the undersigned roads if sold after November 30, 1892.

While this is not a boycott, it is a form of retaliation that is calculated to make the Union Pacific wince. A considerable portion of the California business is done with round trip tickets and not one in a hundred of these tickets is made to read over the same line going and coming. Passengers have the privilege of going one route and returning by another. Consequently the Union Pacific has shared very largely in the profits of this business.

The new agreement will deprive it of any portion of such traffic, which will now be given to the Southern Pacific, the Rio Grande Western, the Denver & Rio Grande and the Colorado Midland.

THE KANSAS SCHOOLS.

Summary of the Annual Report of the State Superintendent.

TOPEKA, Kan., Nov. 21.—George W. Winans, state superintendent of public instruction, is busily at work upon his annual report and has it nearly ready to turn over to the printers. The report, when completed, will show the schools of the state to be in a very prosperous condition.

From a summary of the reports made by 106 county superintendents it is shown that there are 9,123 organized school districts in the state and a total school population between the ages of 5 and 21 years of 498,801 of which 254,678 are males and 244,123 females. This is an increase over the school population of last year of 1,670. There are enrolled in the public schools 383,225 pupils, of which 196,043 are males and 187,182 females. Their average daily attendance for the year was: Males, 119,036; females, 120,091; total, 239,229. The number of teachers employed in the public schools of Kansas is 11,151. The average wages of male teachers is \$42.15 per month; female teachers, \$35.42 per month. The average tax levy for school purposes was 12 1/2 mills. The estimated value of the school property of the state, including land buildings, is \$10,703,708. There are in Kansas 9,088 school buildings, which contain 11,273 rooms. During the year 179 new school houses were erected at a cost of \$151,620. The total school bond indebtedness of the state is \$5,282,083.

ANTI-OPTION BILL.

Senator Sherman Believes It Will Pass Congress.

WASHINGTON, Nov. 21.—Senator Sherman stated that, in his judgment, the anti-option bill, now pending in the senate, would be passed. As may be recalled, the bill passed the house, and after some days' discussion in the senate, went over by agreement to be the first thing to come up for consideration at the coming session.

The senator thought there was no doubt about the bill passing the senate, but it would meet with an opposition very strong coming from the option dealers. Senator Vest is credited with the work of organizing the opposition. A powerful lobby will be on hand before congress convenes, devoted to the work of defeating the bill. Vest is put down as the leader on the floor in response to the demands of the opposition lobby. It is claimed that this explains his prompt absence from Missouri after the election.

Health of the Navy.

WASHINGTON, Nov. 21.—Surgeon-General Brown in his annual report to the navy shows that the naval vessels were remarkably free from contagious diseases during the past fiscal year. There was no yellow fever or cholera, but seven cases of smallpox and twenty-six of measles. The cases of grippé numbered 58, little more than half the number reported for the previous year.

Buried Under a Sand Bank.

CINCINNATI, Nov. 21.—A Commercial Gazette special from Zanesville, O., says: The fifty foot bank of Townsley & Co., at Taylorville, caved in yesterday afternoon, burying five men. Richard Pearl was taken out dead, and Louis Green, William Jewett, Calvin Vexioe and Gilly Sheppard were injured.

White Plains, Ky., Wiped Out.

OWENSBORO, Ky., Nov. 21.—News has reached here of the total destruction by fire of the village of White Plains, in Hopkins county. The fire started in a vacant store room. Eight buildings were burned before the fire was gotten under control.

Alabama's Delegation Solid.

MONTGOMERY, Ala., Nov. 21.—Election returns were counted last night. Cleveland received 138,125 votes, Weaver 85,128, Harrison 88,871 and Bidwell 234. Cleveland has a plurality over Weaver of 52,995. The delegation to congress is solidly democratic.

A. L. Mason, a wealthy citizen of Kansas City, Mo., is dead. He was president of the River Transportation Co. He was born in Orleans county, N. Y., December 7, 1827.

A fire broke out in the Hildebrand block, Nevada, Mo. The loss was \$20,000, half insured.

HOMESTEAD OFF.

End of the Celebrated Amalgamated Strike.

SOME STRIKERS IN BAD SHAPE.

Blacklisted by the Company and No Relations For the Future From the Society—Lawrenceville Men Hit.

HOMESTEAD, Pa., Nov. 21.—The great strike at Carnegie's Homestead steel works has been declared off. After five months' struggle, which for bitterness has probably never been equaled in this country, the army of strikers finally decided to give up the fight. This action was taken at a meeting of the lodges of the Amalgamated association at Homestead yesterday afternoon, the vote standing 101 in favor of declaring off the strike and 91 against it.

Among those present at the meeting were Vice President Carney, Secretary Kilgallon, Treasurer Madden and David Lynch, of the advisory board. The officials addressed the members and in plain words told them the strike was lost and advised them to take steps to better their condition. The remarks met with considerable opposition, but when the vote was taken it showed a majority of ten in favor of declaring the strike off.

Those who were in favor of calling the strike off were jubilant while those who were against it were badly put out. Most of the latter were men who were obstinate and many of them either had applied for positions in the mill and had been turned down or felt sure that their names were on the company's black list and they could not get positions.

A member of the advisory board said yesterday that he had been trying to get the strike declared off for some weeks, as he knew it was lost, and it would have been better for the men as a great many more of them could have gotten their places back.

Those who cannot get back are in a bad fix as the relief funds will be stopped and many hundreds of them have nothing to live on.

The people in Homestead, especially the business men, are highly elated over the declaration to call the strike off, for if it had continued much longer it would have ruined the town. Many business houses have fallen into the hands of the sheriff since the strike has been on. Business is expected to resume its normal condition soon.

The Homestead strike has proved one of the most disastrous in the history of the country. It originated from a reduction in wages in the departments where members of the Amalgamated association of iron and steel workers were employed. The hitch was on what is known as the sliding scale. It is a scale which regulates the men's wages by the market price of steel billets. Nearly every mill in this vicinity signed the scale, including other mills of the Carnegie company. At the refusal of the firm to sign the scale for the Homestead mill, a lockout occurred by the Amalgamated association and they were joined by the mechanics' laborers, who struck out of sympathy only, their wages not being reduced. The strikers drove non-union men out of the mill and adopted military discipline. The story of the bloody fight with the Pinkertons on July 6, the subsequent riotous proceedings and the calling out of the National guard and its departure after three months' duty is too well known to repeat.

For six weeks the mill has been running almost as well as before the strike, but until within the last week the strikers have steadfastly refused to admit defeat. The news of the action was received with dismay by the strikers in the two Lawrenceville mills of Carnegie's. These men were sympathy strikers and went out when the men at Beaver Falls and Duquesne struck. The Duquesne men gave up the strike in three weeks and the Beaver Falls strikers decided to go back yesterday. The Lawrenceville men, however, were steadfast and had no intention of giving in. They are now in the position of striking for no cause. They are very angry at the Homestead men and will probably declare the strike off to-morrow.

The strike at one time involved nearly 10,000 men and the loss in wages will reach it is said, in the neighborhood of \$2,000,000. Then there is the immense loss to the firm, which cannot be estimated, but which conservative people put at least double the amount lost by the men in wages. To this can be added nearly \$500,000 paid to the state troops and to the cost to the county of Allegheny for the riot, treason and other cases, growing out of the strike. The attempted assassination of Chairman Frick of the Carnegie company is also indirectly credited to the strike.

FISHERMEN DROWNED.

Six Poor Fellows Perish While Taking in Trawl.

PORTLAND, Me., Nov. 21.—The schooner Edith M. Pryor arrived here to-day and reports the loss of six men while taking in trawls off Matineus. The lost men were: William Demmilo, Martin, Butler, Joseph Hanlon, William Goodwin, Davis Merrow, all of Gloucester, Mass. Two other men were with those lost, but they were afterwards found on the island of Matineus.

Nebraska Prairie Fire.

OMAHA, Neb., Nov. 21.—A special from Newport, Neb., says: One of the worst prairie fires Rock county ever witnessed started to-day while the wind was blowing a hurricane. The fire is supposed to have started from a spark from a farm house one mile east of Bassett, spreading three or four miles wide, sweeping everything before it. The damage will be probably from \$10,000 to \$15,000.

Atlanta Returns From Georgia.

ATLANTA, Ga., Nov. 21.—The official vote of the state of Georgia in the national election was as follows: Total vote, 233,991; Cleveland, 129,386; Harrison, 48,305; Weaver, 42,939; Bidwell, 988; scattering, 3,363; Cleveland's plurality over Harrison, 81,081, and majority over all other candidates combined, 34,791.

Official Figures From Illinois.

CHICAGO, Nov. 21.—Official returns from all the counties in Illinois give Cleveland 424,149 votes, Harrison 397,335, Bidwell 24,590, Weaver 20,685; Cleveland's plurality over Harrison, 29,824.

HARVARD-YALE MATCH.

Opening of the Game Without a Touchdown—Yale Wins By 6 to 0.

SPRINGFIELD, Mass., Nov. 21.—Fifteen thousand people, all decorated with some college color, most of them the blue of Yale or crimson of Harvard, gathered at Hampden park Saturday to witness the greatest football game of the season and shout for one side or the other. Harvard and Yale were the contestants.

The Yale and Harvard teams were in prime condition. The day was beautiful and thousands of college men and their friends gathered at the park early.

The two teams lined up for the initial rush at 2:15 o'clock. Yale won the toss and secured the ball for the opening. A wedge was formed and fifteen yards made in the first sortie. Then a Harvard man secured the ball and sent it into Yale's territory by a vigorous punt. The Harvard boys followed it closely and soon the ball was within ten yards of Yale's line. A punt sent it back after a hot fight and the struggle was renewed at Yale's thirty-five yard line. In that vicinity the ball remained for some time, but toward the end of the half hour it was slowly forced to the center of the field, where it remained when time was called, amid wild cheers from the Harvard men.

The second half began amid the wildest excitement. Harvard at once formed a wedge and the ball was slowly but surely carried fifteen yards into Yale's territory. There a blue wearer captured it and started back, but Brewer tackled him and securing the ball made a quick punt, which sent the leather over the heads of the Yale men, and it was within five yards of the Yale line when it was recovered. Yale, which was playing desperately, made a grand rally and at 3:30 o'clock the ball was back in the center.

Then Upson of Harvard captured it and made a grand run around the right end for twenty yards, bringing the ball well into Yale's territory again. This, however, proved very costly, for the plucky Harvard boy was so badly injured that he was carried from the field.

This seemed to discourage the giants of the crimson and a run of fifty yards by Bliss of Yale, carrying the ball to Harvard's twenty-five yard line, added to their demoralization.

They fought hard, but fate was against them and five minutes before the time for the close the ball was at Harvard's fifteen yard line with Yale confident and strong.

Slowly but surely the ball crept up to the Harvard line and two minutes before the signal for the end of the half the leather was within one foot of Harvard's goal line. One minute later Bliss had scored the only touchdown of the game and, just as the umpire's whistle sounded, a goal was kicked.

Yale won by the decisive score of 6 to 0. While her men were borne off the field by their enthusiastic backers, the Harvard men sadly away and the great contest was over.

SOUVENIR COIN MINTED.

The First and Three Other Typical Half Dollars Ready For Sale.

PHILADELPHIA, Nov. 21.—The most valuable half dollar ever made in this country, and probably the most valuable coin in existence—the first of the new world's fair souvenirs—was turned out at the United States mint here this morning and delivered to James Wellworth, chairman of the committee on liberal arts of the World's Columbian exposition. In addition to this valuable piece of money, for which a bid of \$10,000 has been made, there were also coined and delivered to Mr. Ellsworth the four hundredth, the fourteen hundred and ninety-second and the eighteen hundred and ninety-second of the new half dollars.

Over 2,000 of the souvenirs were struck to-day and the work will continue until all the 5,000,000 donated by congress are completed. With the exception of the four valuable coins already specified the remainder will be held at the mint until orders for their disposal are received from the treasury department.

STRIKERS FIRED FIRST.

A Pinkerton Officer Describes the Opening of the Big Riot.

PITTSBURGH, Pa., Nov. 21.—When the trial of Homestead Striker Critchlow was entered upon this morning Capt. Cooper testified that he had been a Pinkerton officer since 1867. He left New York July 9 in command of the New York party. He met Capt. Hines in New York. They met the Chicago men in Youngstown. When they got near the works Hines distributed the arms. There were two boxes of guns each containing sixty-five Winchester rifles. About 100 maces were distributed among the men. Sheriff Gray was on the barge. It took three hours to reach the works. When the gang plank had been thrown out of a man threw himself on the plank and began firing from a revolver at a distance of six feet, while others were firing from the shore. There were twenty Pinkerton men on the plank, ten of whom were armed. None of them fired at the man. Asked, "Don't you know this man fell on the plank?" a his face and Capt. Hinds or you shot him in the back?" witnessed replied, "No, sir, the man was not on his face at any time. I did not shoot him and do not know who did."

Atlanta Returns From Georgia.

ATLANTA, Ga., Nov. 21.—The official vote of the state of Georgia in the national election was as follows: Total vote, 233,991; Cleveland, 129,386; Harrison, 48,305; Weaver, 42,939; Bidwell, 988; scattering, 3,363; Cleveland's plurality over Harrison, 81,081, and majority over all other candidates combined, 34,791.

Official Figures From Illinois.

CHICAGO, Nov. 21.—Official returns from all the counties in Illinois give Cleveland 424,149 votes, Harrison 397,335, Bidwell 24,590, Weaver 20,685; Cleveland's plurality over Harrison, 29,824.

SHOP AND RAIL.**ITEMS OF INTEREST TO LOCAL TRAINMEN**

News About Different Roads, Employers and Employees.

Col E. W. McElhane, livestock agent, Missouri Pacific, is doing business at Tipton to-day.

The "cow catchers" on the Missouri Pacific engines are being slatted preparatory to the big snows that may fall.

W. D. Lowry, master car builder for the Fort Scott, Wichita & Western railway, came in this morning from Fort Scott.

Vice President Purdy, of the M., K. & T. spent Saturday with a number of H. & St. Joe officials and Hannibal gentlemen fishing on the Sni.

Wheel Brake.

One of the wheels on the sleeper of the M., K. & T. train which arrived in Sedalia this morning broke down at Atoka, I. T., and the sleeper was abandoned. The passengers were transferred to the coaches.

Has Snakes.

George Donnellon, the druggist at the hospital, is puzzled over a prepaid package which he received Saturday from Kansas City. In the box was a nice fat snake, fully alive and wriggling around in a way that would cause some people to think that they "had 'em." George is feeding it on iodoform.

Wreck on the "Katy."

At 12:30 o'clock last night the falling of a brake-beam of one of the cars on a south bound M., K. & T. freight train derailed seven cars about two miles north of Fayette. The cars were smashed to pieces, but luckily no one was hurt. The wrecking train was sent out from this city.

A New Feature on the "Katy."

The chair car porters on the M., K. & T. are reaching away down in the bottom of their pockets for small change. An order has been issued that all chair car porters on the "Katy" wear white jackets. Of course the porters squeal, but it does no good as the road has their pay checks ready when ever they feel dissatisfied. This means about one jacket a day for the laundry, but then the boys will "look nice."

MANY NEW TOWNS.

What is Being Done Along the Line of the Missouri, Kansas & Eastern Railway.

From the Rocheport Commercial.

The road bed from New Franklin to where it reaches the bluffs west of town, is being tied and railed. The tracks laying east of Rocheport are coming this way rapidly. The work upon the tunnel cut will be finished in two more weeks closing the gap between Ward's works and town. Ward will have finished his last small fill and will be putting the final touches upon his contract within the same time. The piling are all driven for the Moniteau bridge, and the bridge carpenters are busy in preparing the stringers and cross timbers. Neil & O'Connor are putting the final touches of completion upon their contract, and Smith & Gillett will be at their row's end on December the first. The heavy blasting along the road down to where the construction train is now coming, has been completed. The grade of the road bed is made to coincide with the water level, from St. Charles to New Franklin and longer trains can be hauled over this road than any other in the state.

The building of the M., K. & E.

road has given rise to several new villages along the line in Boone county. Other counties along the river have also shared in similar development. Just west of Rocheport, is Wardsville, a thriving tent town of about one hundred inhabitants. A short distance west, is Doolingsville. This village is a great Sunday resort for the Rocheport perambulators. They go there by the score to note the advancing work and to witness the novel scene of the workmen, in washing their flannels in the brook, using a stone for a washboard. Below town is Zanzabar, where the colored workmen reside. On further down is Dago City, where dwell the immigrants from the sunny land of Italy. In neighboring distance to this town, is Gillettsville, a noted village for Teuton industry and Irish witicism. Fourther on down the river bank is located the flourishing town of Coffeysville. This hive of industry is inhabited by citizens of many nationalities, but industry is their watchword and the spirit of enterprise is not lacking. Hancey City is not far distant with her canvass houses and happy industrious citizens. Evansville is another important tent town upon the road. It has built up rapidly and its numerous citizens are not behind the neighboring towns in enterprise and industry. The voters in these numerous towns have added weight to the democratic majority in Boone county and their citizens are rejoicing in the great political victory of recent date. Our reporter has only visited the new towns as far down as Huntsdale. This latter town is eight miles from Rocheport, and is the most thriving city between Rocheport and Providence.

PERSONAL.

M. L. Dutton, of Chicago, is at Siche's.

Miss Maud Shirk was a passenger to St. Louis at noon.

John Murphy, the traveling salesman, went east this morning.

Louis Lower, of the Longwood neighborhood, is in the city to-day.

EXTRAORDINARY: OVERCOAT SALE:

In the very heart of the season, we give the people of Sedalia the elegant chance to buy a first-class overcoat for little money, having bought over six hundred (600) overcoats at less than manufacturer's cost (ready cash did it), enables us to offer you, from now until they are sold out, good \$14, \$15, \$16, \$17 and \$18 overcoats in Kersey, Meltons, Cassimers, Friezes, Chinchillas, in all the new colorings, dark or light shades, for the small sum of

\$12.50.

ST. LOUIS CLOTHING CO., Corner Second and Ohio Streets.

We also offer this week special drives in BOYS' UNDERWEAR,

For 25, 35, 50 & 75 Cents.

COME AND SEE THEM.

Counterfeiting.—In a few days you will undoubtedly see advertised, by some would-be competitor, Overcoats for \$12 or \$12.50, but, let us assure you, these Overcoats we offer you in this Special Sale were purchased for this occasion, and we have too many to speculate on them at regular prices—hence they must go --at \$12.50, and all imitating sales can't compare with our values. Of course, if there were no genuine dollars, there would be no counterfeits. Pretty hard to be the counterfeits sometimes, but in our Special Overcoat offerings you will easily detect the genuine at sight.
